

# YOUR CATERING

All your meals during the courses have been planned: breakfasts, lunches, dinners.

We have done our utmost to offer you varied restaurants and different meals each time. We hope you will be delighted to taste our French food!

We have left to you meals we will call "**FREE**". We couldn't impose you to eat all the time in restaurants. So you will be given, during your first day of training, a prepayed card with which you will have the possibility to shop in a supermarket next to your hall of residence.

Please notice that we are engaged towards the restaurants, which have all already been paid. You must thus comply with the following programme. Thank you.

One last thing, feel free to tell the waitress/waiter if you have any allergy. They would be happy to propose you any other possibility they may have.

If you have any question about the catering during your stay in France, don't hesitate to contact:
